## **ROTOTIME® Flexx-Trans™ SHAFT COUPLING**

Reduce Motor and Gearbox failure with Zero Backlash Shaft Couplings and save on maintenance cost.

Flexible shaft couplings are designed to absorb shaft misalignment. Shaft misalignment causes bearing failure on motor, gearbox and timing devices.

Couplings become the lower cost safety standard to minimize expensive repairs.

Operate with confidence with Zero Backlash Shaft Couplings to absorb misalignment.

*Buy with confidence in our high quality, low price and superior service in the industry*

Our products are made with highest quality material with low environmental impact at a reasonable price.

We believe in creating value for customers by innovating and improving our products and providing before and after sales support. A long term business relationship built on trust, respect and continued responsible partnership.

Quality in printing, packaging, converting, medical, oil/gas and food process machinery are increased with Zero maintenance and Low Mean Time Between Failure products.
